

Registration order form

CANopen[®] vendor-ID

The worldwide unique CANopen vendor-ID shall be implemented in the identity object (Index: 1018_h) of every device compliant with CiA 301 (version 4.01 and higher) and CiA 1301 (version 1.0.0 and higher). It is a unique number for each registered company, optionally departments of that company may be distinguished.

Department names may identify organizational divisions, i.e., "Germany", "Medical". Department names may not be identified with names like "Development", "Research" or "Manufacturing", as the product lifecycle is development, production, service, and deposition.

The CANopen vendor-ID is registered by CiA e.V. and causes an administrative fee of **1500,00 € + German VAT**. This service is free of charge for CiA members.
